Education
UPES Dehradun   **Aug 2022-Present**
Bachelor of Technology in Computer Science   **Cgpa - 8.01 (present)**

Carman Residential And Day School Dehradun
Intermediate in Pcm   **2020-2021**
                                                                    80%
High School   **2018-2019**
                                                                    88.6%

―――

Technical Skills
Languages : Python , Scala , Java
Development : Django, Html , Css , Spark , Solr , Kafka
Databases : MongoDb,Mysql
Developer Tools : Vscode,Git,Github , Databricks (Community edition) , PowerBi
Cs-Fundamentals

―――

Projects
Employee Management System | learned Django and applied various features
Successfully developed a web-app comprising SQL lite , authentication , data handling
Smooth user experience through easier flow from one feature to another.
Tech stack : Django , HTML , CSS , SQL lite, Bootstrap

Google Sheets API deployed web app |
Developed and Deployed a Stream-lit app which uses Google sheets API to record data provided
through form by the user then convert to CVS and perform analysis.
Tech stack : Python , Stream-lit ,Google sheets API
click to see the app

IPL Data Analysis |
 worked on an exciting project analyzing IPL (Indian Premier League) data using Spark and Data-
bricks. This project helped me explore large datasets, transform data, and find meaningful
insights about cricket.
Tech Stack: Python,Data-bricks

YouTube Comment Sentiment Web app
Streamlined the pipeline to fetch the comments of a YT video and provide it to a system which
convert it to JSON then using spark to handle it in form of stream then using python to fetch the
sentiments of the users through comments
Tech Stack : API , Python , Stream lit , Spark
click to see the app
